

SUSTAINABILITY JAM KÖLN

48 HOURS TO SAVE THE WORLD!

Or how to get closer to environmental sustainability using service design tools!

Each year in Autumn, people interested in a design-based approach to creativity meet at locations all over the globe to tackle environmental, social and economic problems and come up with sustainable solutions!

Everyone is welcome!

You will form teams and work together for 48 hours to create brand-new, real-world ideas which can make that little difference.

Or perhaps a big different - it's up to you!

This year we bring the event back to Köln. The event is running from 21st - 23rd of November 2014.

THE SUSTAINABILITY JAM IS A NON-PROFIT EVENT.

We seek local sponsors to help us provide the best experience for all our attendees!

Sponsoring the Sustainability Jam is a great way to reach Cologne's creative community and energetic pioneers who are looking to make a difference!

THIS EVENT IS AWESOME! HOW CAN I CONTRIBUTE?

Your contribution is valuable and can be implemented to the event in very different ways!
